#### Wooden Ship Idea Not be Carried Out Build Steel Boats

(By United Press)  
Washington, May 26—The idea of constructing one thousand 3,000 ton wooden ships has been abandoned, and new efforts are under way to build steel boats. Some of the ship board officials want a few wooden ships.

#### Some Anxiety Felt Withdrawal of Gold America by Japan

(By United Press)  
Washington, May 26—Some anxiety is felt over the fact that Japan is withdrawing gold heavily from America, the purpose not being clearly understood, nearly \$15,000,000 in gold having been exported to Japan in the last four weeks. Mexico and Spain have recently been drawing on the country's gold but the amounts have been negligible and every precaution to prevent the money leaking into Germany has been taken.

**DUE TO EXPORT TRADE**  
Washington, May 26—The large gold shipments are due to the fact that Japan's export trade with America has doubled since the war began, the Japanese embassy said today.

#### "German Inspired Peace Conference"

(By United Press)  
Stockholm, May 26—The refusal of Secretary Lansing to issue passports to the American socialists to attend the conference here, expresses to the delegates that it is a "German inspired peace conference." No French or British socialists will be in attendance at the meeting.

(By United Press)  
Undated—The U. S. destroyer No. 9 ran aground on the rocks at an American port and was badly damaged, tugs pulling the vessel off. No one on board was injured.

#### Complete Repulse British Forces Battle at Loos

(By United Press)  
Berlin, via London, May 26—A complete repulse of British forces in the battle at Loos is announced. Many prisoners and machine guns were taken by the Germans.

#### Quakers will not Accept Converts to Escape Draft

(By United Press)  
New York, May 26—The Quakers plan to put a ban on men of military age who are flocking to their sect for the purpose of escaping conscription because of their religious faith.

#### Will Punish all Discriminations Selective Draft

(By United Press)  
Washington, May 26—The local community and the political interests threaten to cheat America of the new army she should have. The outcroppings of political anglers in working out the selective plan was evident recently, and it is feared the local boards will be swayed by political conditions in making exemptions. It is suggested that local directors through political or personal considerations may "discover" conditions to excuse many men drafted. The war department will do all in its power to punish this.

#### Take 3,500 Prisoners

(By United Press)  
Rome, May 26—3,500 prisoners have been taken in the Carso fighting and further progress is announced, the fighting still continuing.

#### Architect Dies

Talk of the possible creation of three new cabinet posts includes the name of Mr. Baruch as minister of munitions. As a member of the Council of National Defense he has engineered several big deals for the United States.

#### Consumer to Bear Burden Under the War Revenue Bill

(By United Press)  
Washington, May 26—The consumer will bear the burden under the \$1,800,000,000 war revenue bill if the senate finance committee course is carried out, the committee disapproving the gross sales tax method. The taxes on musical instruments, movie films, jewelry, medicine and cosmetics will probably be eliminated as in the auto tax, and license will probably be substituted.

Washington, May 26—The senate finance committee shifts the 5 per cent auto tax from the manufacturers to the owners and has lopped off the house provision for sur-taxes, heavily increasing on incomes of over \$40,000.

#### Attempt Dynamite Government Depot Secret Sessions

(By United Press)  
Rio de Janeiro, May 26—The attempted dynamiting of the government depot has caused excitement here. The war fleet is patrolling the Atlantic and the Brazilian congress is continuing secret sessions while anti-war members are filibustering.

The closing concert of the Symphony season, given Friday evening by the Brainerd Symphony orchestra and the Brainerd Choral club, attracted a large audience in the opera house and nearly every seat was taken.

Under the direction of Edwin Harris Bergh's wizard baton the orchestra played as one man, giving remarkable renditions of standard classical music.

The Brainerd Choral club, also directed by Mr. Bergh, sang their best and were the recipients of much applause.

The program started with the "Voluntary" by Kloeber, a most effectively arranged medley of airs by Mozart, Beethoven and Herring.

"The Mice and the Trap" by Kloeber, was a descriptive selection. The music pictured mice joyfully playing around a trap. One braver than the rest, enters into it and begins to gnaw; the trap snaps and away scamper the mice.

Two selections by Grieg, "Heart Wounds" and "The Spring," with solo part by Julius Witham, were admirably rendered. The genius of Grieg was ably interpreted.

The first part closed with a "Musical Melange" by Boettger, which introduced many of the world's famous and popular melodies taken both from grand opera and overtures.

The Choral club was heard to advantage in three numbers, "Unfold Ye Portals" by Gounod in which Miss Mabel Johnson sang the recitative; "Mid the Waving Rose Trees" by Cowen, a melody of intrinsic beauty; "Tis Thy Wedding Morn," by Cowen, in which the piano score played by Miss I. Mildred Skauge was a wonderful example of counter-melody.

The "Rondo de Armour" by West-hout, often played by the Minneapolis Symphony orchestra, was given with dash and spirit.

The last part consisted of three orchestral numbers, "Danse Les Roses" by Barthel, "Deep River" by Burleigh and the ever beautiful, sonorous, swinging Tannhauser March by Wagner, in which brass and reed section contributed in the finale.

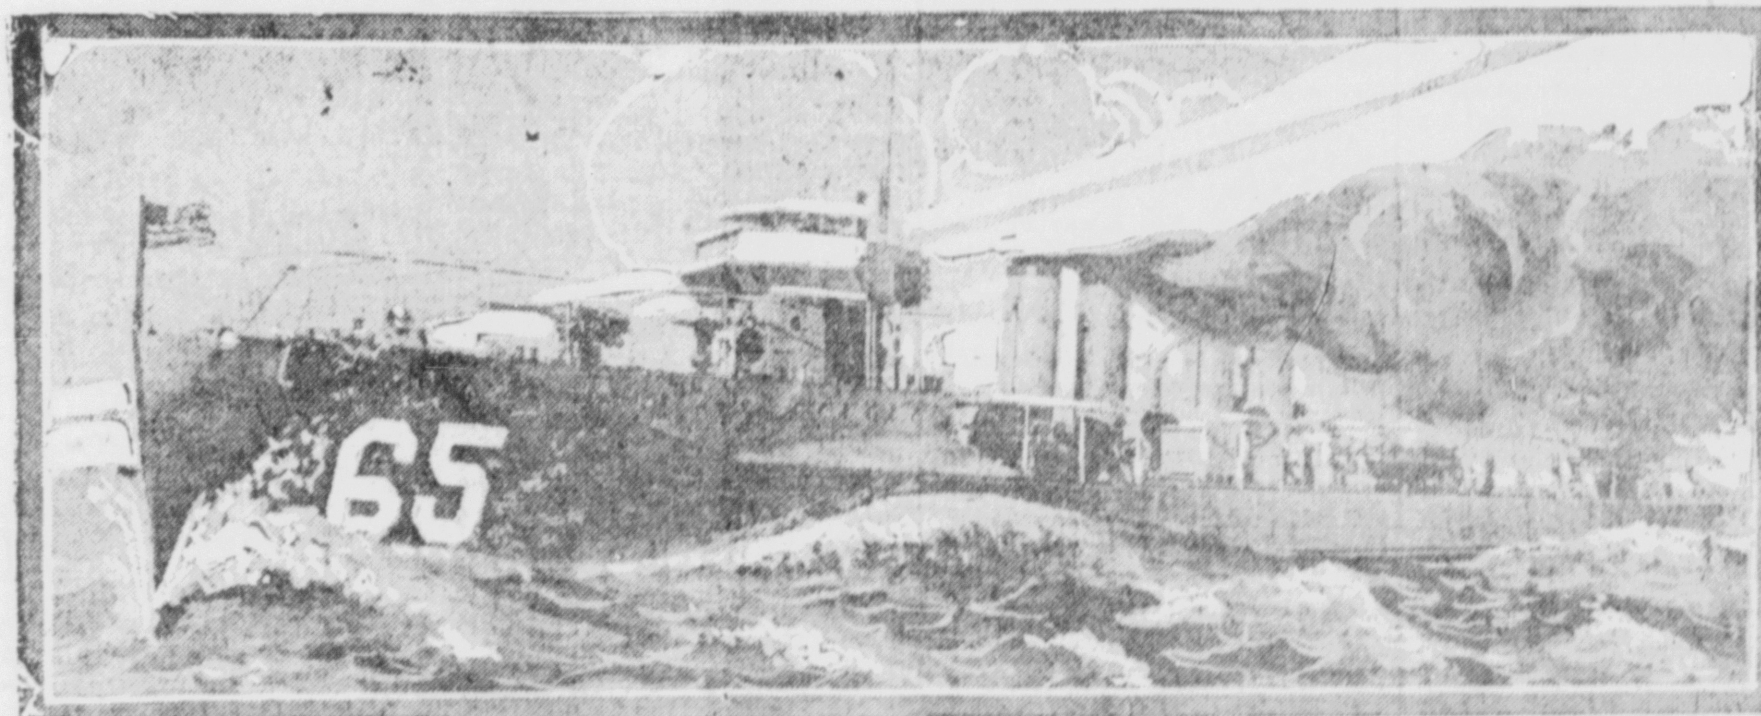

The concert closed with the orchestra playing and the audience singing "America."

On all sides one heard words of commendation for the concert and for the splendid rendition of the various numbers. In a short speech Mr. Bergh, during one of the intermissions, thanked all for their encouragement and support and predicted greater things next season.

**Choose Your Six From Among the Leaders**

HERE are automobile dealers selling Chandler Cars in a thousand cities and towns. Naturally, however, there are a great many towns in which there is no Chandler dealer. It is possible that the town where you do your trading, your home town, has no Chandler dealer. Still, if you choose your six from the two or three makes which may be represented there, the chances are you do yourself a serious injustice. Make your choice from a broader field.

The resident of a city when he buys his car chooses from among many. He compares many. He knows and talks with the owners of many. Why shouldn't you choose from many?

THOUSANDS WHO COMPARE ALL MAKES PREFER CHANDLER If you want a high-grade six-cylinder car why should you accept the six which happens to come with the line of some low-priced "four" which finds ready sale all through the country just because it is cheap? You shouldn't. The buyer in the city choosing a high-grade six does not choose a six that comes with the line of cheap cars. He chooses a six from among the leading sixes.

And we want to emphasize this fact—which to you is absolutely vital in your consideration of the choice of a car—that in large communities where buyers have the choice of absolutely all automobiles manufactured in this country—not the choice of two or three lines, but the choice of all lines—the Chandler Car is a leader.

In all the big cities where men have the choice of all cars, the Chandler is a leader.

CHANDLER WINS FAVOR IN COUNTRY COMMUNITIES And in hundreds of farming communities, in farming communities wherever introduced, the Chandler has sprung into immediate popularity. It has attained its popularity in country communities the same as in city communities for the same reasons of finer value for fair price.

Why deny yourself the opportunity of this greater value in a six, even though there may not be a Chandler dealer in the nearest village?

The six that may be leading in sales there, because of the mere fact of local representation, possibly commands no recognition whatever in markets where men have the choice of all makes.

ONE OF OUR DEALERS WILL DEMONSTRATE FOR YOU And there is a Chandler dealer somewhere near you, so near to you at any rate that he would be glad to arrange for any kind of a demonstration you might desire. And near enough to you so that such incidental matters of service as you might require could be readily provided you.

The thing we ask you to do is to give yourself the advantage of knowing something about this great car which in four years has gone to an absolutely commanding position in the trade, and which this year twenty-five thousand buyers will pick as the six to be preferred above all sixes. We want you to know this car, and you owe it to yourself to know this car.

CHANDLER CLAIMS OF SUPERIORITY ARE EASY TO PROVE You should know all about the Chandler because the Chandler offers intrinsic value greater than other sixes for which you are asked to pay much more, and immeasurably greater values than other sixes for which you are asked to pay only a little less. Greater value in materials, design, equipment, and, above all else, in the dependable and enduring service of its marvelous motor.

You may say it is easy to make such a claim for the Chandler. It is. And IT IS EASY TO PROVE SUCH A CLAIM FOR THE CHANDLER.

What other make of car, at anything like the Chandler price, offers you a motor which has been developed, refined and perfected throughout four years of conscientious manufacture and not subjected to radical changes or experimental devices? NONE.

What other make of car, at anything like the Chandler price, offers you such a proven mechanism as the whole Chandler chassis? NONE.

What other make of car, at anything like the Chandler price, offers you all those features characteristic of the highest priced, highest grade cars—Bosch high tension magneto; solid cast aluminum crank case, extending from frame to frame; big silent chains instead of noisy gears for driving the motor shafts; full floating and silent spiral bevel gear rear axle and light running annual ball bearings in transmission, differential and rear wheels? NONE.

What other make of car, at anything like the Chandler price, offers you more beautiful and comfortable bodies than the Chandler? NONE.

Chandler policy has always kept the Chandler price low. Relatively it is lower today, when so many prices have been inflated, than ever before.

We shall be glad to send you a Chandler catalogue and all possible information about the Chandler car.

### Fly Guilty of Murder.

Dr. Crumblin of the Kansas state board of health discovered the murderous character of the fly in keeping a monthly record of infants who died from diarrheal diseases.

He found that deaths increased as flies multiplied. In January, the season of no flies, deaths were only thirty-five, while during July and August, the season when flies swarm in greatest numbers and carry most filth and germs to the baby's bottle and the baby's lips, the deaths of little children soared to 176.

There is a call for such action NOW as will stop flies from breeding.

Will you heed that call now or wait until your own baby dies?

### Scissors Hints.

If you have a sharp pair of scissors in your kitchen here are things they will help you do:

When cutting meat, celery, marshmallows, pimento for salads, or carrots, cabbage, onions, parsley for soups, nothing could be more useful than a pair of scissors. This is also true when cutting citron, lemon or orange peel or taffy candy.

Rhubarb sauce will have a better color and flavor if the stalks are cut with scissors instead of a knife, as the scissors do not remove the skin.

A fowl is more easily disjuncted with scissors than a knife. The work is done more quickly, and there is no splintering of the bones.

These are only a few of the uses for scissors in the kitchen, besides the ordinary use of cutting strings and shelf papers.

Services to be Held at Brainerd High School Auditorium, Rev. H. G. Stacey Speaker

### WILL BE UNION SERVICES

Special Music by High School Under the Direction of Miss Conrad, Music Supervisor

Baccalaureate services for the Brainerd high school will be held at the high school auditorium on Sunday evening at 8 o'clock. Rev. H. G. Stacey, rector of St. Paul's Episcopal church, will preach the sermon.

There will be union services and a large proportion of the church congregations of the city will be in attendance, for the high school and its graduating class is something very near and dear to all.

Special music will be given by the high school under the direction of Miss Conrad, supervisor of music. The high school orchestra, quartet and the school chorus will be on the program.

### \$1,000 VIOLIN

Splendid Violin Made by E. McCoy of Staples on Exhibition at H. P. Dunn Drug Store

On exhibition in H. P. Dunn's drug store is a violin, valued at \$1,000, made by E. McCoy, an old violin maker of Staples, who for years was located in Minneapolis where he did repairing for members of the Minneapolis Symphony orchestra and became known from coast to coast as an expert repairer.

The violin is of Minnesota wood throughout, spruce top, and curly maple back, still unvarnished. It took Mr. McCoy two years to complete it.

### BRAINERD MAN GIVES EVIDENCE

His Testimony Will Interest Every Brainerd Reader

The value of local evidence is indisputable. It is the kind of evidence we accept as true because we know we can prove it for ourselves. There has been plenty of such evidence in the Brainerd papers lately, and this straightforward testimony has established a confidence in the minds of Brainerd people that will not be easily shaken.

William Bourquin, carpenter, 913 Seventh St., Brainerd, says: "I suffered severely from kidney and bladder trouble. The kidney secretions were too frequent in passage and I had backaches and pains through my sides and loins. The trouble kept me from working and gave me no end of annoyance. Doan's Kidney Pills soon relieved me in every way."

Price 50c at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Bourquin had. Foster-Milburn Co., Props., Buffalo, N. Y.—Adv.

### OSCAR MAURICE ANDERSON, JR.

(Florida Times Union)

Green Cove Springs, May 12—Oscar Maurice Anderson, Jr., the little son of Mr. and Mrs. O. M. Anderson, of Carbur, died at 6 o'clock, Thursday morning, at the home of his parents, after an illness of only a few days. Everything possible was done by skilled physicians and loving friends, but to no avail, as it seems the little fellow was not destined to remain here long, having come only to brighten the hearts of parents and friends for two short years.

The body, after having been lovingly cared for by friends in Carbur, was brought to Green Cove Springs, the home of his maternal grandparents, Mr. and Mrs. P. J. Canova, and after services in the Catholic chapel, conducted by Father Hennessy, of Jacksonville, was laid to rest in Hickory Grove cemetery, by Green Cove Springs friends.

The pallbearers were Messrs. Maurice Hodge, Mahlon Jones, Clifford Geiger and W. P. Smith, Jr. Acting as honorary pallbearers were: Messrs. Rowan Griffiths, Reta Weeks, Julia Gustafson and Mary Jane Townsend.

The many floral offerings showed that Baby Maurice was loved by all who knew him and he will be greatly missed by everyone.

One more little one

Another sweet carol

Is heard on high.

Mr. Anderson, Sr. is the son of Mr. and Mrs. P. T. Anderson, of 901 Fifth Avenue Northeast Brainerd. The sympathy of his many Brainerd friends is extended them in their sad bereavement.

### No Professional.

"I was in hopes my son would be a professional man."

"Isn't he willing to take up such work?"

"Hasn't shown any signs of doing so as yet. When it comes to work he seems to be in considerable fear of jeopardizing his amateur standing."—Louisville Courier-Journal.

### IMPROVED GARAGE

Modern One Built by R. W. Seelye on N. Bluff, Supplied With Hot Water Service

A modern type of garage is the one recently built from plans drawn by R. W. Seelye at his home at 17 Bluff avenue north. In it has been installed a Wasco system of hot water heating, the furnace requiring but a hod of coal a day and automatically maintaining the temperature set.

Walls of the building are well made, having wall board on the inside, an air space and then boards and shiplap on the outside. The floor is of cement. The building contains so many conveniences that it has awakened the interests of brother automobile owners and they have examined the structure.

### JITNEY DANCE

Given at Lum Park by Tom Mansuras on Friday Evening Was Very Largely Attended

The jitney dance given at Lum park Friday evening by Tom Mansuras attracted a large number of young people and the program of dance music furnished by the Blue Ribbon orchestra pleased all of them.

Each number, played in four selections, embraced two offerings of a two-step and two of a waltz. The night was cool and considered just right for dancing.

The pavilion has been entirely screened in and not a mosquito can be found on the premises. The Lum park bush service ran like a clock, a car about every fifteen minutes.

### Worms Handicap Your Child

Worms drain the strength and vitality of children, making them dull and listless. Their power to resist more serious diseases is reduced and energy and interest in play is lacking. Kickapoo Worm Killer is a mildly laxative remedy in candy tablet form that children like to take. It kills and removes the worms and lets your child grow strong and healthy like other children. Don't let your child be dragged down by worms. Full directions on the box. At all druggists, 25c.—Adv. ttw

Make a list of requirements such as beauty, comfort, convenience, horsepower and the like. Overland has won the verdict of over 400,000 owners after a comparison of such items. If this is not enough to convince you, then judge your Overland by what you cannot see. You cannot see the accuracy, the minute care, nor the patient perfecting that are practiced in Willys-Overland manufacturing methods. But you may know that these things are definite Willys-Overland accomplishments—else it would never have been possible for us to market those 400,000 cars. You cannot see the quality in the materials—the scientific reasons for designs, nor the proven superiority of every part and principle.

These things, and the millions in economies effected by Willys-Overland's vast production, are vital factors in your car although not visible to the layman's eye. But they are visible to the layman's reason—they are seen in continued consistent performance—and they are shown convincingly in the price that gives you a better car for less money. The Big Four—the car that made Overland—exemplifies this excess value. The experience accumulated in the building of over 300,000 similar four-cylinder Overlands has contributed directly to the development and perfecting of this model. Test its superior mechanical excellence and remarkable easy riding qualities—come in and judge for yourself its incomparable beauty of design.

MORE GERMAN PLOTS

(Editorial in Minneapolis Journal)

Secretary Lansing has very neatly pricked the bubble of the Stockholm Socialist peace conference by announcing that no passports will be given to American delegates, and that any American citizen who participates will be liable to prosecution under a law passed by congress in 1799.

This means that negotiations for ending the war so far as the United States is concerned are exclusively the affair of the government, and that no private American citizen will be permitted to meddle therein.

The Stockholm conference, it is now generally recognized, is merely one of those subtle schemes of Germany for bringing about a peace that shall leave her in possession of her booty, and relieve her from the crushing defeat that otherwise will surely come upon her.

The German socialists, long hated and harried by the Prussian autocracy, have suddenly come into high favor. Permission has been granted them to send delegates to Stockholm. Efforts more or less open have been made to draw the socialists of neutral countries into the scheme, and fraternization with the Russian socialists has been sedulously cultivated.

The English and French socialists have denounced the conference as a German plot, and will not attend. But the American socialists, who are largely dominated by German thought and German sympathy, have been relied upon to help the scheme. Three strongly pro-German delegates had been chosen and were ready to leave, when Mr. Lansing dashed their hopes by his refusal of passports and his citation of the law more than a century old.

The whole plot is of a piece with the effort to discredit in advance and before its arrival in Russia the Am-

erican commission that has been sent to Petrograd. First, Elihu Root, its chairman, was denounced to Russian socialists as a plutocrat and a capitalistic ogre.

Then it was demanded that Cha. Edward Russell, the socialist member of the commission, resign because not representative of his party. Russell was good enough socialist to run for governor of New York, but when he took his stand as a supporter of American rights and American honor, he suddenly lost caste with his pro-German brethren.

Finally the labor standing of James Duncan, another member of the commission, who is vice president of the American Federation of Labor, was attacked, though he is vouched for by Samuel Gompers. Means have been found to send these charges to Russia, no doubt, since their purpose is plain.

Those who conspire against the interests of the United States and in aid of the interests of Germany are well, they stand in slippery places!

The United States senate will be the scene of a battle royal over the war tax proposition, the house measure being exceedingly unpopular and the senate has been made the target of objections from every part of the country excepting the south. The southern democrats who control the house devised the war financing method and put it through that branch. The senate finance committee propose to modify it by making the 16 per cent excess on business profits apply to war trade only, eliminate retroactive tax on 1916 incomes and eliminate the increase postage rate on newspapers and periodicals.

The union trust rounded up by the federal grand jury at Boston was a "strong" combination. More than 800 per cent profits did not satisfy the union kings. Growers were paid two cents a pound for their product and the trust members sold later and receive 15 cents per pound. One may not like onions but the 88 firms and individuals indicted by the federal grand jury should get the limit.

Illuminating devices are used in night fighting in the trenches of Europe and a vast amount of phosphorus is needed in their construction and as a consequence the raw material in this country has advanced to such an extent that two cents additional has been added to the price of a box of matches. Uncle Sam needs the phosphorus and there is a shortage. Conserve your matches.

Prohibition in the United States will come by easy stages if the elimination of distilled liquors is ordered by the government as a war measure, followed later by a ban on beer, which will come if the grain situation demands drastic steps.

It is a matter of general comment that probably all the neutral countries will join with the United States and men like Judge Gary are proclaiming in public addresses that it is the world against Germany.

KEEN SUBMARINE HUNTING

American Destroyers Making Good in European Waters.

Washington, May 26.—Information has reached the navy department that more submarines are being run down, captured and destroyed than ever before. Although the exact details cannot be divulged it is known the American destroyer flotilla has played an active part in the work.

One report said that during the last week twenty-eight German submarines were captured or destroyed.

Agricultural Army Proposed.

Washington, May 26.—An agricultural army, composed of those disqualified from military service to use public lands and be advanced money, implements and seed by the government, was proposed in a bill introduced by Senator Lewis of Illinois. Half the crops would go to the government.

DEVELOPMENTS OF WEEK ON RANGE

Rich Bodies of Manganiferous Ore Are Being Proved Up on Hunter Property is Report

J. J. HENNEN AND ASSOCIATES

Proving up Property Near Thompson Mine, Good Results Shown in Over 20 Holes

Rich bodies of manganiferous ore are being proved up on the Hunter property east of Manganese. Check drilling is practically completed in preparation for the new mine.

The Cuyuna-Minneapolis mine, or better known as the Merritt No. 2, have sunk their shaft to a depth of 78 feet. The mine is just north of Manganese.

The MacKenzie mine is removing their entire outfit of old machinery. The present equipment was installed temporarily. It is reported that Flynn lake will be entirely pumped out so that the mine work can be resumed with a large new equipment.

Large bodies of manganiferous ore have been proved up and the MacKenzie will no doubt be one of the leading producers in this section of the north range.

The Algoma mine, also handling manganiferous ore, has completed its second shaft, and has increased its working force considerably. The second shaft enables the working of more levels and nearly doubles the output.

Joseph J. Hennen and associates of St. Paul are drilling in the northwest quarter of the northeast quarter of section 11, township 46, range 29 and meeting with good results. From 22 to 24 holes have been put down. The property joins the Thompson mine on the east. Mr. Hennen was looking up tax matters at Brainerd and was accompanied by Andrew Johnson of Superior, Wis.

L. A. Barton, vice president of the Adbar Development Co. has returned from a trip in the east. He has enlisted in the engineer corps and expects to be called soon for active service.

The Mahonien mine has started to ship, two steam shovels being at work. A drainage shaft has been sunk over 225 feet and a level cut from which drifting is now advanced into ore.

The Brainerd-Cuyuna mine operating in the city limits of Brainerd will hold its annual meeting of stockholders June 4 at 10 A. M. in the rooms of the Chamber of Commerce in Brainerd, for the election of five directors and other business.

The old Barrows mine at the north end of Barrows is awaiting the arrival of a pump to unwater the working for the purpose of examination. Good progress is being made in shaft sinking at the Rowley mine at the south end of Barrows village.

BRINGS TOTAL TO BILLION

June Loan to Entente May Reach \$400,000,000.

Washington, May 26.—Treasury officials have turned their attention to the financial requirements of the allies for June and are formulating a more or less elastic program designed to stand for several months.

Indications are approximately \$400,000,000 will be advanced the allies in June, bringing the total up to more than \$1,000,000,000.

REGISTRATION CARD QUESTIONS

\*\*\*\*\*

Read carefully before you go to the registration table. Here you see what will be asked. Study the questions. Prepare the answers in your mind. Questions will be asked for you to answer in the order in which they appear on this paper. These questions are set out below with detailed information to help you answer them.

Do not write on, mark, or otherwise mutilate these instructions. Do not remove them. They should be carefully read so that you will have your answers ready when you go before the Registrar.

All answers will be written on the Registration Card in ink by the Registrar, who should be careful to spell all names correctly and to write legibly.

\*\*\*\*\*

(Concluded)

11. What military service have you had? Rank? Branch? Years? Nation or State? No matter what country you served

you must give complete information. In answering these questions, first name your rank, using one of the following words: "Commissioned officer," "Noncommissioned officer," "Private." Next, state branch in which you served in one of the following words: "Infantry," "Cavalry," "Artillery," "Medical," "Signal," "Aviation," "Supply," "Marine," "Navy." Next, state the number of years service, not counting time spent in the reserve. Finally, name the nation or state you served. If you served under the United States or one of the states of the United States, name your service in one of the following terms: "National Guard (of such and such a state)," "Militia (of such and such a state)," "Volunteers of United States," or "Regular Army (Navy) of United States."

12. Do you claim exemption from draft? Specify grounds.

Because you claim exemption from draft, it by no means follows that you are exempt. For the information of the war department you should make a claim now if you intend to prosecute it. Some persons will be exempted on account of their occupations or offices, some on account of the fact that they have relatives dependent upon them for support. Your answer touching these things will be important in supporting the claim you now intend to make in your answer to the present questions. Be sure, therefore, that the grounds you now state are in conformity with your answers to questions 7 and 8. In stating grounds you claim as exempting you, use one of the following terms: If you claim to be an executive, legislative, or judicial officer of the state or nation, name your office and say whether it is an office of the state or nation. If you claim to be a member of a religious sect whose creed forbids its members to participate in war in any form, simply name the sect. If you are employed in the transmission of the United States mails or as an artificer or workman in an armory, arsenal or navy yard of the United States, or if you are a mariner employed in the sea service of any citizen or merchant within the United States, so state. If you are a felon or otherwise morally deficient and desire to claim exemption on that ground, state your ground briefly. If you claim physical disability, state that briefly. If you claim exemption on any other ground, state your ground briefly.

## QUICKLY ARREST BIGAMY SUSPECT

Sheriff Claus A. Theorin Wires St. Cloud Sheriff and Latter Arrests E. H. Woodfeldt

## NOW LODGED IN COUNTY JAIL

Married Brainerd Girl November Last Year, Claimed has Wife No. 1 in San Francisco

Charged with bigamy, E. H. Woodfeldt of Brainerd, was arrested at St. Cloud late Friday afternoon and is now lodged in the county jail here.

The warrant alleges that Woodfeldt, already married, on November 30, 1916 married a young lady of Brainerd and lived with her.

Woodfeldt left Brainerd Friday with wife No. 2 for Minneapolis, taking the afternoon train. The sheriff went to St. Cloud by automobile.

Wired to in advance, the sheriff at St. Cloud got the message to arrest Woodfeldt five minutes before the train arrived, found his man and had him in custody when the Brainerd sheriff arrived.

In a conversation with Sheriff Theorin Woodfeldt admitted he had married wife No. 1, lived with her five or six months. He claims she left him to live with her parents in San Francisco.

Woodfeldt is a traveling salesman, selling suits made to order.

Woodfeldt was arraigned in court at 11:30 this morning. Swanson & Swanson appeared as his attorneys and the case was continued 10 days.

## GOLEMBOSKE NOW IN KANSAS

Brainerd High School Boy Tells of Training Received in Signal Corps at Leavenworth

## GLAD TO GET THE DISPATCH

Meals are Good, No Hard Tack, Lots of Beef Stew, Soup and for Sunday Chicken

Depot Company "I Signal Corps, Fort Leavenworth, Kan. The Brainerd Daily Dispatch, Brainerd, Minnesota.

Gentlemen—I received the bundle of papers you mailed me and I was very glad to see the news from home. It certainly looked good to the eyes of Lamonte Koop and myself. I believe we read every ad of every description contained in the issues. Koop and I and the two Hanson boys are the only ones from Brainerd here at this post. Warner, Falconer and Hall were enroute to some fort in Vermont while some of the other Brainerd boys in the coast artillery were headed for New York and the rest were either going to Frisco or Texas while the Hanson boys, Koop and myself were shipped here. We were glad to learn that some more Brainerd boys had joined and hope to be able to run across them some time for it sure would seem good to see some one I knew from "God's country."

I became acquainted with a little fellow down here who worked in Brainerd last fall. His home is in Winona but he had worked in Brainerd for four months, so was pretty well acquainted.

After three weeks of military life I feel I can safely say that the opinions of some people in regard to the meals and general life of a soldier is decidedly "off." The only place I have seen the dreaded "hard tack" placed on the table was twice in the week that I was at Jefferson Barracks, and at both of those times it was served with soup so we had no complaint to make. It was more of a luxury than anything else. Since I arrived at this post two weeks ago I have not seen a single piece of hard tack instead we have plenty of beef stews, potatoes cooked in the many different ways they may be cooked, leake, breakfast foods and all the table delicacies to be had in the average home. The past two Sundays we have had chicken and lots of it for dinner and as they unloaded several crates of chickens again today I suppose we will again have chicken Sunday next.

We go out for physical drill each morning from seven-thirty until eight, then from eight-thirty until nine we take practice with telegraph instruments learning to handle the wire telegraph, from 9:30 to 10 we practice signalling with flags both semaphore and wig wag. From 10:15 until 10:45 we practice wireless telegraphy and from 11 to 12 we take military drill. After dinner until 2 P. M. we take a hike of about a mile or two to the hills around and separate into two squads and talk back and forth about a mile apart with the flags and heliographs. It certainly is interesting and I enjoy it very much. After two P. M. the rest of the day we have to ourselves. Several of us are going over to the federal prison at Leavenworth and go through and see the sights at that place very soon.

At our barracks here we have a player piano, pool tables, library, swimming pool, gymnasium, current papers and magazines, barber shop and tailor shop, so you can readily see that we are not treated so bad. I must close as I want to go to town and must catch the next car so that I can get back early. Hoping I shall hear that more Brainerd boys are joining the colors and that I may meet them here as I expect to be here some time, I am

Sincerely yours,  
EARL J. GOLEMBOSKE.

## IN MUNICIPAL COURT

Mrs. May Cole Bound Over to Grand Jury—W. E. Fitzharris up in Court

Mrs. May Cole, arrested in a raid at the National hotel and charged with keeping a house of ill fame, waived examination in municipal court and was bound over to the grand jury November term, bonds being fixed by Judge Walter F. Wieland at \$500.

W. E. Fitzharris was arraigned on a complaint sworn out by Chief of Police John J. Gile, being charged with breaking a city ordinance in obstructing the view of the interior of his soft drinks place, using a large American flag to drape over his window. The case was set for trial on Monday, May 28, at 2 P. M.

## Stephens Six "The Car With the Punch" Strength

Sturdiness, the most essential quality in an automobile, predominates in the Stephens Six. The car is built to last, to give long and faithful service. The Stephens Six is not a one-season car. After a year of hard usage, it is ready to heed the call of the open road, not pleading with motor knocks and body creaks for an asylum on the junk heap of superannuated mechanism.

## As Strong as the Company that Builds it

The Stephens Six is made to sustain and perpetuate a reputation for quality and dollar-for-dollar value that the manufacturer has enjoyed for more than half a century. A manufacturing experience of fifty-one years is the priceless heritage of the Stephens Six.

Expert workmanship and carefully selected materials are features of motor, chassis and body. All parts are designed and constructed for durability. A prestige that dates back to 1866—too valuable an asset to be sacrificed on a below-standard automobile.

## Power—Beauty—Comfort

These qualities also are incorporated in the Stephens Six at \$1225. You will find them in both models—the five-passenger touring car and the three-passenger roadster.

May we give you a demonstration? We want you to get behind the steering wheel of the Stephens Six and learn what real automobile quality and value are.

## TO PREVENT OLD AGE! COMING TOO SOON!

"Toxic poisons in the blood are thrown out by the kidneys. The kidneys act as filters for such poisons. If we wish to prevent old age coming too soon and increase our chances for a long life, we should drink plenty of pure water and take a little Anuric," says the famous Dr. Pierce of Buffalo, N. Y.

When suffering from backache, frequent or scanty urine, rheumatic pains here or there, or that constant tired, worn-out feeling, the simple way to overcome these disorders is merely to obtain a little Anuric from your nearest druggist and you will quickly notice the grand results. You will find it thirty-seven times more potent than lithia, and that it dissolves uric acid as hot water does sugar.

St. Paul, Minn.—"I recommend heartily all sufferers of kidney troubles to Dr. Pierce, for what he has done for me cannot be estimated too highly. I have taken many kinds of kidney medicine but I never found any relief until I took three boxes of Dr. Pierce's Anuric Tablets, so I can truly recommend these tablets to all sufferers of kidney troubles. I think I am a well woman in regard to kidney trouble. Whoever is troubled with the kidneys should not hesitate to get these Anuric Tablets for they are worth their weight in gold."—Mrs. W. LINDSEY, 227 Grove Street.

Minneapolis, Minn.—"A short time ago I became all run-down and weak, also was very nervous due principally to woman's trouble. At times was very miserable. I saw Dr. Pierce's Favorite Prescription advertised as being good for this condition. I got it at once and one bottle completely cured me so that I have not had any trouble since. I am in better health than I have ever been, due, I am sure, to this medicine. I can safely recommend it to others."—Miss JULIA CARROLL, 1312 4th Street N.

## FIRST TIME DURING WAR

German Socialists Call Convention to Meet Aug. 12.

Copenhagen, May 26.—The Berlin Vorwarts announces that a national German Socialist convention has been summoned for Aug. 12, at a place not yet decided upon. The convention, if permitted, will be the first of its kind during the war.

The Berlin Vorwarts, Socialist, declares that no German, after the horrors of the three years of war, could think of purchasing peace on the terms indicated in the speech of Premier Ribot. It asserts that rather than this the war must last for an other three years.

# Liberty Loan

Backed By All the Resources of the Richest Nation In the World

A UNITED STATES Government Liberty Loan Bond is the safest investment on earth. It is backed by the total resources of the richest nation in the world. It pays an absolutely net income—it is practically as good as cash with none of the risk of actual cash.

No investment you hold can be safer and no other bond enjoys such a broad and ready market in case you wish to sell.

## A PROFITABLE INVESTMENT.

The last great government bond issue sold for par in 1898 and for 110¾ in 1900. So highly were these bonds regarded by investors that the Secretary of the Treasury only succeeded in buying back one-tenth of the issue when he offered redemption.

## BE A GOVERNMENT BOND HOLDER.

The Liberty Loan offers an opportunity for you to become a government bondholder.

Investors: Put your money where it is tax exempt—in Liberty Bonds.

School Teachers: Liberty Bonds are as good as a pension. They are the safest investment in the world.

Married Men: Liberty Bonds are as safe as life insurance for your family. Uncle Sam never goes out of business.

Mothers: Buy a bond for the baby. Give him his start in life with Uncle Sam as a backer.

Young Business People: Get your financial start by putting your savings into a Liberty Bond.

Trustees: Relieve yourself of the worry of separate investments by putting monies in trust into Liberty Bonds.

Employers: Help your employees get ahead by loaning them money for Liberty Bonds.

Old People: Relieve yourself of financial worry and make sure of the safety of your estate by concentrating your capital in Liberty Bonds.

Organizations: Put your sinking fund where it will be safe and will draw interest—in Liberty Bonds.

Widows: Avoid the risk of business dealings about which you know nothing by investing in Liberty Bonds.

New Americans: Put your money where it will be safe—in Liberty Bonds.

Enlisted Men: Be sure your money is safe and benefiting those at home by putting it in Liberty Bonds before you go.

## A SAFE NET INCOME.

Our Government has made these bonds exempt from all state or federal taxes, except estates and inheritances. They thus give an income absolutely net to you, regardless of the income tax. There are many investments paying a higher rate of interest which do not yield as much as 3½ per cent net after all taxes have been paid.

## THE BEST BASIS FOR CREDIT.

Liberty Loan Bonds are the best possible basis for credit. When you need a loan you can present them to your banker and get the money you need. As soon as you repay your note, he will return the bonds to you. They will have been drawing interest for you the entire time.

A Liberty Loan Bond is worth many times its face value in the credit it secures for you.

## SUBSCRIBE TODAY.

Subscribe for your Liberty Bonds today. Millions of dollars of Liberty Bonds have already been sold. If you have not the cash at present, borrow it from your employer or from the banks who are making a specialty of lending for this purpose. You can be a government bond holder if you will.

Secretary of the Treasury McAdoo says: "The greatest immediate service the American people can render in this War for universal liberty throughout the world is to furnish the means for its vigorous prosecution. This bond issue is the first step. I earnestly bespeak the co-operation of every citizen throughout the length and breadth of the land in this great service of patriotism."

You can place your subscription for Liberty Bonds through any bank, trust company, bond house, department store or post office. Make the best financial and patriotic investment today by subscribing for your Liberty Bond.
